

Connecticut's Guidelines for the Development of Infant & Toddler Early Learning (ELG's)

Did you know Connecticut has developed a comprehensive set of guidelines focused on the development of infants and toddlers?

Like many caregivers, you probably have questions about how a child grows and develops and want to know what you can do to encourage this development.

This **FREE** training is designed to introduce you to this resource developed to support the healthy development of children under age three.

CT Guidelines for the Development of Infant and Toddler Early Learning (ELG's)

provides current research, best practices and strategies infant and toddler primary caregivers can use, no matter what early childhood setting they are in. A rich and extensive resource section and exciting and reproducible parent handouts are also provided.

Highlights of the ELG's include:

As A Baby Grows and Develops, Look to See: This section outlines the baby's developments and the skills she is actively working on.

A Supportive Environment Includes: This section gives you information on how to provide an environment that supports the baby's development.

Ways You Can Support Healthy Growth and Development: This section provides you with examples of how you can support a baby's development.

Did You Know: This section highlights current research or other facts that you might not be aware of.

PLEASE SEE THE BACK OF THIS FLYER FOR IMPORTANT TRAINING SESSION INFORMATION

Connecticut's Guidelines for the Development of Infant & Toddler Early Learning (ELG's) Training Calendar

Updated February 3, 2012
